

Dobra Bed

Product Type

Bed

Dobra ("Fold" in Portuguese) was created from a natural gesture: the folding of a soft material. In each piece, a strength that respects the foam's density is applied. It's as if a big cushion was curved and paused in time. This way, the piece, a frozen arc movement, sustains its possible return to the original position. The Dobra sofa is modular and allows different compositions with 5 modules variations. The original WE—KNIT — made from recycled PET bottles —combines a tactile experience, with high resistance and sustainability.
