

Pipeline Wallhanging 2

CC-Tapis

Product Type Wallhanging

Research which began with the Slinkie Collection for cc-tapis, Pipeline is the translation of Urquiola's digital artworks into an artisanal product. A series of connected tubes emerge from the surface of the rug and create a labyrinth of color whose volume gives a sense of depth to the rug. Multiple chromatic evolutions that develop through circular movements, overlapping on different levels of Himalayan wool, focusing the gaze on the space outlined by the tubes. Also available in round and as a runner.

Dimensions

4,9 x 5,6 ft
