

## Trono Side tables

Umberto Bellardi Ricci

**Product Type** Low Table

Exploring the dialogue between different materials, Umberto Bellardi Ricci gives life to a collection that stimulates the interaction between architecture and design. In Trono Pixel and Trono Pill, two simple geometries, such as the cube and the circle, become the support – the throne – of the person who sits down on it. The generous shapes of the seat contrast with the essentiality of the leg in a clean structure that enhances the contrast between raw materials and refined textures and fabrics. A low table completes the family: supported by the same essential leg as the stools, it takes up the material contrast in the elegant round marble top.
