

## Bloom Table Light

Resident

**Product Type** Table Lamp

The Bloom Table Light's super-elliptical form is inspired by the gentle dynamic flow of paper lanterns. Its glorious lit effect is the result of transparency and light. Two contrasting materials – a finely perforated mesh core and frosted blown glass, combine to project a soft focus texture onto the inside of the shade.

Sitting atop a plated stainless steel base, Bloom's distinct character is evident both in its on and off state, creating a versatile table light.
