

Fulcrum Table Light

Resident

Product Type

Table Lamp

The Fulcrum Lamp is the modern re-expression of an archetype, with a free formed silhouette and a pivotal shade that allows the lamp to take on new form from every angle.

Fulcrum's shade can be rotated with the gentle sweep of a finger. Raising the light output from a soft glow to full brightness as the shade pivots through a seamless transition of cantilevered rotations, it is composed of a Japanese paper shade and either a sand-cast silicon bronze or cork base.

Dimensions

L11.8" x W6.9" x H21.1"

L30cm x W17.5cm x 53.5cm
