

Wire stool VP11

&tradition

Product Type Stool

What makes the Wire Stool indicatively Verner Pantan is the use of stainless-steel wire to create a simple geometric shape with repeated patterns, in a stackable stool that doubles as a side table. An icon from the archives destined to become a collectible, the airy transparency makes it a versatile design suitable for a vast array of settings. Each Wire Stool has the option of detachable seat pads, in four colours, attachable with a discreet magnet.
