

Paola Chair

Tacchini

Product Type Chair

Solidity and lightness go together. Rigidity and sweetness meet. Paola is a chair that speaks of tradition and modernity, it is a historic project by Vico Magistretti that Tacchini is proud to be able to include in its project dedicated to re-editions.

A slight helical rotation outlines the rear legs when they become the supports of the slightly inclined and curved backrest; soft and rounded lines soften the front legs at the point where they join the base of the seat, geometric and rectangular. Proposed with an ash wood structure and padded seat, this chair represents the dichotomy of many of the Lombard architect's works: composed and robust, but stackable and light to be easily moved.
