

Bridges Triangle

BD Barcelona

Product Type Cabinet

Bridges is a collection of cabinets designed by Muller Van Severen. MVS developed the cabinets from their series of 'Wave' vases. The vase silhouettes were brought into handmade cabinets with unique cutout bases that transcend function. Their refined colours and glossy finishes emphasise structure, standing out with a sculptural beauty. Alone or as a whole, the Bridges cabinets create a colourful architecture that is vibrant and spacious and, of course, full of personality.

Dimensions
