

Calvet Stool

BD Barcelona

Product Type Stool

Gaudí's Calvet Stool is beautifully designed with a unique form and presence.

The Calvet stool was designed alongside a collection of furniture for the Calvet house. Rich contours and varnished grain swerve into a cornered backrest with minimal decorative elements allowing the quality of the materials to speak to their fullest. The symmetrical structure sits on three legs and fits easily into a corner, while the dark mass of wood adds a natural lightness that demonstrates Gaudí's bold, organic and eccentric style.

The stool is numbered and accompanied by a certificate signed by the director of the Gaudí Cathedra, certifying that it is a faithful and exact reproduction of the original designed by Antoni Gaudí.
