

Explorer Low Table

BD Barcelona

Product Type Low Table

The Explorer Low Table curves around a monochromatic body that is smooth, compact and practical.

The table punctuates the room with its bold presence. Rich HIGH gloss lacquer is applied and buffed by hand, attesting to the genuine care and passion of Hayon and his craft. A pure form and rounded edge, prominent and attuned. Hayon expanded the body across four solid alder wood legs, subtly moulding the table into its surroundings while staying aesthetically resolved and recognisable.
