

Explorer Dining Table 5

BD Barcelona

Product Type Dining Table

The rounded and streamlined Explorer Dining Tables shift modern matter into space.

Designed in 2021 as a continuation of the playful Explorer collection, Jaime Hayon's Explorer tables have a modern, near-organic appearance. The table comes in three tabletop sizes, hosting a variety of colour options and an aerodynamic and 'winged' steel top. The surface is extremely matte and durable with their Fenix laminate finish providing a comfortable and smooth surface. The Explorer's top curves around the centre leg, creating a spacious environment to enjoy the table from every angle.
