

Showtime Nude Chair

BD Barcelona

Product Type Office Chair

The Showtime Nude Chair was introduced as an additional version to the Jaime Hayon chair collection. Over the years the success of this particular Showtime design gave rise to adding several customization options like the interior upholstered backrest. We have called it 'Nude' as we have taken the essential and added new legs and a more ergonomic backrest. The chair comes with different optional types of legs: wooden, metal, swivel and wheels. *Made in Barcelona.*

Please inquire for more information.
