

Delphi Linear - Vertical Double

Matter Made

Product Type Pendant

Delphi Linear is the newest addition to our Delphi collection. The collection pairs cast and machined brass with fluted glass tubing, paying homage to iconic Greek columns. The fixture can be oriented horizontally or vertically and multiple elements can be combined end-to-end for stunning compositions. Continuing the engineering innovations that Matter Made is known for, Delphi features a custom LED array, providing 360-degrees of light within each cluster.
