

Polar Armchair

Tacchini

Product Type Armchair

The Polar armchair is inspired by the vast ice blocks of soft, irregular shapes that float freely in the northern seas, creating ever-changing scenarios.

Designed by Pearson Lloyd, Polar is a system with multiple visions that interprets with originality and strong aesthetic presence the needs of contemporary living, drawing inspiration from the intrinsic forms of natural Arctic landscapes. Like the other elements, the armchair is characterised by solid volumes and oblique cuts that can be combined to create a wide and comfortable seat with or without a backrest. Completing the system are the sofa and an original piece that can be used as a seat or table.
