

Bread Side tables

Tacchini

Product Type Side Table

The Bread side tables take form from soft slices of bread stacked into organic, sculptural shapes. They are part of the Bread and Butter collection created in collaboration with Faye Toogood. Bread and butter are the building blocks of everyday happiness, and the inspiration behind the collaboration with Toogood. The Bread and Butter collection captures the studio's experimental and playful spirit, and its unconventional creative process rooted in everyday gestures and objects. The two Bread side tables are sculpted from ash wood with a finish that highlights the natural grain, while the maple inlay — naturally dyed in a soft primrose tone — creates a visual effect reminiscent of buttered bread.
