

Torii Love Dining Table

Tacchini

Product Type Dining Table

The Torii Love table draws on the architecture and sculptural language of the console of the same name, bringing the solemn structure of Japanese torii gates into dining areas. The essential monumentality of the namesake console, inspired by the sacred gateways of Japanese tradition, in a succession of unexpected visions and emotions. Three fundamental elements — a top with strong character resembling an architrave, and two legs that suggest load-bearing pillars — come together in a structure as simple as it is evocative. Elegant finishes play with lacquered tones in a refined balance of material and color.
