

## Gian & Pan Side Tables

Tacchini

**Product Type** Side Table

Gian & Pan are a family of low tables inspired by the iconic windows of the Lina Bo Bardi building — SESC Pompeia. The tables explore contrasts in materials and colors, with a fascinating dialogue between light and form. Designed by Studiopepe for Tacchini combine marble and concrete into free-flowing, organic shapes. The tables are freely configurable, with options for the top — available in three types of marble distinguished by their tones and veining — and the legs in concrete, available in three glossy colours. *Contact us for Anti-stain treatment on marble top.*
