

Andrea Lamp

Tacchini

Product Type Lamp

Andrea transforms the visionary spirit of space travel into a contemporary portal of light: a wall lamp that emits an ethereal glow and creates highly evocative atmospheres. Design emerged during NUOVA's artist residencies in California and Texas, while exploring Donald Judd's approach to structural form and architecture. Merging retro-futurism with refined minimalism, the wall light blends craftsmanship and materiality into an object with a clear identity made from steel with a PVD silver coating that creates a natural mirror-like reflection, it emits a near-spatial glow, delivering an immersive visual impression.

Dimensions

Ø 12,20" x D 2,76"

Ø 31cm x D 7cm

UPON ORDERING THIS DESIGN
