

Baobab Armchair

Tacchini

Product Type Armchair

Baobab is a cosy armchair with a strong personality, where aesthetically pure shapes and differing volumes come together in novel contrasts and comfortable harmonies.

Designed by the Lievore Altherr Molina studio, Baobab embodies their humanistic approach to design, characterised by a careful search for aesthetically beautiful and pure shapes that arise from constraints derived from functional, technological, and contextual needs. The armchair stands out for the contrast between the full, rounded volume of the seat and the thin, more geometric profile of the backrest. The result, in addition to being particularly rich in personality, is also pleasantly comfortable and inviting.
