

Isol Floor 30/76

Astep

Product Type Floor Lamp

A seamless transparency is created, while embracing the die- cast aluminium rings, allowing the lamp to melt into the scenery. Part sculpture, part acoustic solution, and part light source, Isol can be used in a variety of combinations and in private and public environments as an aesthetic way of bringing acoustic properties into a space. Alone, it convinces through quiet authority offering a sense of privacy. In multiples, its distinctive character is enhanced — in the suspension version furthermore by connecting the rings to extend lighting and noiseabsorbing power. Isol Floor and Isol Suspension comes in creme and black finish, both available in two heights.
