Product Type Sofa

In keeping with the experimental spirit and unconventional creative processes of the Tacchini studio, the Butter Sofa takes shape from a lump of Danish butter moulded by slippery fingers. Delicately padded – soft, tactile, and comforting, just like butter – the sofa rests on large volume reminiscent of building blocks, modular and easily reconfigurable. “There is beauty in the small things of everyday life sometimes you don’t need to go beyond the breakfast table to discover new meaning”. – Eero Tuomioja.
