

## Throne Chair New Tendency

## Product Type

Dining Chair

Throne is a substantial yet delicate armchair. Made from powdercoated industrial readymades, it is carefully welded together to reveal its significant graphical shape and minimalistic construction. Referencing the classic Monobloc chair, round and angled shapes come together to form a harmonious whole. Viewed from different angles, Throne changes its shape. Its generous seating area can also be used as a storage area for books or as a side table. It will expose its qualities the best as a free-standing object in the living room or foyer.

MATERIALS Powder coated aluminium DIMENSIONS 620 × 470 × 750 mm
