

## Rivet Side Table

Frama

### Product Type      Table

The Rivet Side Table is a versatile furniture piece suitable for any room. Its circular top is divided into three different levels, creating a dynamic surface. Based on a riveting technique suitable for making perpendicular joints between separate, laser-cut raw aluminum sheets, the table is put together by hand using a hammer in a cold-forming assembly process developed by designer Jonas Trampedach in 2011.

### Dimensions

W 51,3cm x D 51,3cm x H 40cm

W 20,20" x D 20,20" x H 15,75"

### Thickness

4 mm
