

## Single Shelf

Frama

### Product Type Shelving

The Single Shelf is a refined take on a classic, its character inspired by shelving considered a staple in Danish homes as early as the 1930s. Carpenters would attach generic brackets, similar to those now used in the Single Shelf, to custom shelving, cut down to fit. A versatile design for bedside, kitchen, office, storage, and display.

*Note: Single Shelves are designed to be wall-mounted and are not compatible with the Shelf Library System or configurator.*
