

Shelf Library Compositions

Frama

Product Type Shelving

Rail-mounted shelving systems were initially popularized by Scandinavian cabinet makers in the early 1930s. Soon after, many architects and designers released their own takes that would become fixtures of the mid-century modern movement. Kim Richard's Shelf Library System, developed for FRAMA and initially released in 2016, is a refined interpretation of this tradition with its own design language. An infinitely modular system that lends itself to any space. Contact us for more details.
